NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED 31 MARCH 2012

15 May 2012

CONTENTS

(Figures in millions of euros unless otherwise indicated)

NOTES

1. Significant events of the period

2. Group accounting policies

3. Non-current assets

4. Current assets

5. Consolidated equity

6. Non-current and current provisions

7. Non-current and current debt

8. Main components of change in net debt

9. Analysis of sales and other revenues from operations

10. Income tax expense

11. Segment information

12. Principal exchange rates

-------- o --------

Declaration of compliance:

The consolidated financial statements of Bouygues and its subsidiaries (the “Group”) for the three months ended 31 March 2012 have been prepared in accordance with the standards issued by the International Accounting Standards Board (IASB) as endorsed by the European Union and applicable as of that date. These standards comprise International Financial Reporting Standards (IFRSs), International Accounting Standards (IASs), and interpretations issued by the IFRS Interpretations Committee – previously the International Financial Reporting Interpretations Committee (IFRIC), itself the successor body to the Standing Interpretations Committee (SIC) — and are referred to collectively in these financial statements as “IFRS”. The Group has not early adopted as of 31 March 2012 any standard or interpretation not endorsed by the European Union, except for the amendment to IAS 1 relating to the presentation of the statement of recognised income and expense (which is not in conflict with pronouncements already endorsed in Europe).

The financial statements are presented in millions of euros (unless otherwise indicated) and comprise:

- ✓ the balance sheet;
- ✓ the income statement and statement of recognised income and expense;
- ✓ the statement of changes in shareholders’ equity;
- ✓ the cash flow statement;
- ✓ the notes to the financial statements.

The comparatives presented are from the consolidated financial statements for the year ended 31 December 2011 and for the three months ended 31 March 2011.

1.0 SIGNIFICANT EVENTS OF THE PERIOD

1.1. SCOPE OF CONSOLIDATION AS AT 31 MARCH 2012

1,103 entities were consolidated at 31 March 2012, against 1,132 at 31 December 2011. The net reduction of 29 mainly relates to Bouygues Immobilier (deconsolidation of real estate partnerships and property companies on project completion, etc.), and to Colas (first-time consolidation of Servant group companies, mergers, etc.).

	MARCH 2012	DECEMBER 2011
Fully consolidated	**846**	**865**
Proportionately consolidated	**197**	**206**
Associates (equity method)	**60**	**61**
	1,103	**1,132**

1.2. SIGNIFICANT EVENTS OF THE FIRST QUARTER OF 2012

1.2.1. Significant events of the first quarter of 2012

The main acquisitions and corporate actions of the first quarter of 2012 are described below:

- On 17 January 2012, Bouygues Telecom was granted, in exchange for €683 million, authorisation to use 10 MHz frequencies in the 800 MHz band in France (excluding overseas territories) to establish and operate a public mobile radio-electric network, with a commitment to open it to Mobile Virtual Network Operators (MVNOs). This authorisation, which will come into service at a future date, was awarded for a period of 20 years.
- On 27 January 2012, Bouygues raised €800 million via a ten-year bond issue bearing interest at 4.5%, with a view to refinancing debt that is approaching maturity.
  The bond issue was paid up on 9 February 2012.

1.3. CONSOLIDATED SALES FOR THE FIRST QUARTER OF 2012

Consolidated sales for the first quarter of 2012 totalled €6,985 million, 4.5% higher than for the comparable period of 2011 (€6,686 million).

1.4. SIGNIFICANT EVENTS AND CHANGES IN SCOPE OF CONSOLIDATION SUBSEQUENT TO 31 MARCH 2012

None.

--------- o ---------

2.0 GROUP ACCOUNTING POLICIES

2.1. Business areas

The Bouygues group is a diversified industrial group, with operations in more than 80 countries.

The Group's activities are organised into a number of business areas:

a) Construction:

- Bouygues Construction (building & civil works, energy and services)
- Bouygues Immobilier (property)
- Colas (roads)

b) Media/Telecoms:

- TF1 (television)
- Bouygues Telecom (mobile, fixed, TV and internet services)

c) The Bouygues group also holds a 30.74% interest in the Alstom group (Alstom Thermal Power, Alstom Renewable Power, Alstom Transport, Alstom Grid).

2.2. Basis of preparation

The consolidated financial statements of the Bouygues group include the financial statements of Bouygues SA and its subsidiaries, and investments in associates and joint ventures. They are presented in millions of euros, the currency in which the majority of the Group's transactions are denominated, and take account of the recommendations on presentation (Recommendation 2009-R-03) issued on 2 July 2009 by the Conseil National de la Comptabilité – CNC (now called Autorité des Normes Comptables – ANC), the French national accounting standard-setter.

The consolidated financial statements were adopted by the Board of Directors on 15 May 2012.

The consolidated financial statements for the three months ended 31 March 2012 were prepared in accordance with IFRS using the historical cost convention, except for certain financial assets and liabilities measured at fair value where this is a requirement under IFRS. They include comparatives as at and for the year ended 31 December 2011 and the three months ended 31 March 2011.

The Bouygues group applied the same standards, interpretations and accounting policies for the three months ended 31 March 2012 as applied in its consolidated financial statements for the year ended 31 December 2011, except for new IFRS requirements applicable from 1 January 2012. Consequently, Note 2 to the consolidated financial statements for the three months ended 31 March 2012 does not include detailed disclosures of these accounting policies, and these financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2011.

- *Principal new standards, amendments and interpretations effective within the European Union and mandatorily applicable or permitted for early adoption for periods beginning on or after 1 January 2012:*

  - **Amendment to IFRS 7***:* Disclosures – Transfers of Financial Assets (mandatorily applicable from 1 January 2012, impact on the full-year financial statements only)

- *Other key standards and amendments issued by the IASB but not yet endorsed by the European Union*

The table below shows the principal standards and interpretations that had been issued by the IASB prior to 31 March 2012 but have not yet come into effect:

Standard	IASB effective date*	Expected impact on the Bouygues group
Amendment to IFRS 1: Severe Hyperinflation and Removal of Fixed Dates for First-Time Adopters	1 July 2011	No impact on the financial statements
Amendment to IAS 12: Deferred Tax – Recovery of Underlying Assets	1 January 2012	No impact on the financial statements
Amendment to IAS 1: Presentation of items of Other Comprehensive Income (OCI) **(1)**	1 July 2012	Impact on the presentation of the financial statements
Revised IAS 28: Investments in Associates and Joint Ventures	1 January 2013	Under review
Revised IAS 27: Separate Financial Statements	1 January 2013	No impact on the financial statements
IFRS 10: Consolidated Financial Statements	1 January 2013	Under review
IFRS 11: Joint Arrangements	1 January 2013	Under review
IFRS 12: Disclosure of Interests in Other Entities	1 January 2013	Under review
IFRS 13: Fair Value Measurement	1 January 2013	Under review
Amendment to IAS 19: Employee Benefits	1 January 2013	Under review
IFRS 9: Financial Instruments – Classification and Measurement of Financial Assets	1 January 2015	Not quantifiable at present (endorsement process suspended by the European Union)
***** *Unless otherwise indicated, applicable to accounting periods beginning on or after the date shown in this column*		

(1) *Although the amendment to IAS 1 has not yet been endorsed by the European Union, the Bouygues group decided to early adopt it with effect from 1 January 2011 since it is not in conflict with pronouncements that have already been endorsed.*

- Seasonal trends

Sales and operating profit are subject to significant seasonal fluctuations due to low activity levels during the first half, primarily at Colas. The extent of these fluctuations varies from year to year. In accordance with IFRS, sales for interim accounting periods are recognised on the same basis as full-year sales.

- Elective accounting treatments and estimates used in the valuation of certain assets, liabilities, income and expenses:

Preparing financial statements to comply with IFRS standards and interpretations requires the use of estimates and assumptions which may have affected the amounts reported for assets, liabilities and contingent liabilities at the balance sheet date, and the amounts of income and expenses reported for the period.

These estimates and assumptions have been applied consistently on the basis of past experience and of various other factors regarded as reasonable forming the basis of assessments of the valuations of assets and liabilities for accounting purposes. Actual results may differ materially from these estimates if different assumptions or conditions apply.

The main items involved are the impairment testing of goodwill, share-based payment (stock options), employee benefits (lump-sum retirement benefits, etc.), the fair value of unlisted financial instruments, deferred tax assets, and provisions.

Where no standard or interpretation applies to specific transactions, events or conditions, Group management exercises its judgement to define and apply accounting policies that will provide relevant information that gives a fair presentation and is comparable between periods, such that the financial statements:

- represent faithfully the financial position, financial performance and cash flows of the Group;

- reflect the economic substance of the underlying transactions;

- are neutral, prudent, and complete in all material respects.

Disclosures about judgements made by management are provided in the notes to the consolidated financial statements.

2.3. CONSOLIDATION METHODS

- Full consolidation

  Companies over which Bouygues exercises control are consolidated using the full consolidation method.

  Assessment of exclusive control over TF1:

  - As at 31 March 2012, Bouygues held 43.61% of the capital and voting rights of TF1. Exclusive control by Bouygues over TF1 is demonstrated by the following:

    - Bouygues has consistently and regularly held a majority of the voting rights exercised at TF1 general meetings, and no other shareholder directly or indirectly controls a higher share of voting rights than Bouygues.

    - Bouygues has clearly had exclusive power to determine decisions at TF1 general meetings during at least two consecutive financial years.

    Other factors indicating the existence of exclusive control include:

    - the large number of seats on the TF1 Board of Directors allocated to Bouygues;

    - the role of Bouygues in appointing key executives of TF1.

    All these factors clearly establish that Bouygues exercises exclusive control over TF1.

- Proportionate consolidation: investments in joint ventures

  A joint venture is a contractual arrangement whereby two or more parties undertake an economic activity which is subject to joint control. Bouygues consolidates the assets, liabilities, income and expenses of such entities using the proportionate consolidation method based on the percentage of control exercised. This definition applies in particular to Bouygues Construction and Colas construction project companies, and to Bouygues Immobilier property companies.

- Investments in associates

  An associate is a company over which Bouygues exercises significant influence without exercising control. Significant influence is presumed to exist where Bouygues directly or indirectly holds at least 20% of the entity's voting rights.

  The net profit or loss and the assets and liabilities of such entities are accounted for by the equity method.

  - Alstom: Bouygues exercises significant influence over Alstom, as demonstrated by its 30.74% interest in the capital and its control of two seats on the Board of Directors.

    The interest in Alstom is reported in "Investments in associates" in the balance sheet as of 31 March 2012, and is carried at net acquisition cost (including goodwill) plus Bouygues' share of Alstom's net profit since the acquisition date.

    Based on the results published by Alstom on 4 May 2012 for its financial year ended 31 March 2012, and given the time-lag between the financial year-ends of Alstom (31 March) and Bouygues (31 December), the amount recognised for Alstom's contribution to the Bouygues group's net profit in the first quarter of 2012 was €58 million, compared with €23 million in the first quarter of 2011.

    Amortisation of fair value remeasurements of Alstom's identifiable intangible assets and other items had a negative impact of €4 million on the Group's consolidated income statement for the three months ended 31 March 2012 (portion attributable to the Bouygues group).

- Concession arrangements and Public-Private Partnership (PPP) contracts:

  The Bouygues Construction group enters into concession arrangements and PPP contracts with local authorities via entities in which the Group holds an equity interest, generally of less than 20%. Given the effectively limited role of the Group in these entities, they are not consolidated. Equity interests in concession operating entities are in the majority of cases accounted for as associates by the equity method, or otherwise are not consolidated.

- In accordance with IAS 39, equity investments in non-consolidated companies are measured at fair value, and are subject to impairment testing.

2.4. BUSINESS COMBINATIONS

With effect from 1 January 2010, business combinations have been accounted for in accordance with the revised IFRS 3 and IAS 27, which use the concept of "obtaining control" in determining the accounting treatment to be applied to acquisitions or disposals of equity interests; depending on the circumstances, the impacts of such acquisitions and disposals are recognised either in consolidated profit or loss or in equity.

In a business combination, the fair value of the consideration transferred is allocated to the identifiable assets and liabilities of the acquiree, which are measured at fair value at the acquisition date and presented in the balance sheet using the full fair value method in accordance with IFRS 3. This method involves remeasuring the assets and liabilities acquired at fair value in full (including minority interests), rather than remeasuring just the percentage interest acquired.

The revised IFRS 3 allows entities to elect one of two methods of accounting for minority interests in each business combination:

- at fair value (full goodwill method), i.e. the minority interests are allocated their share of goodwill;
- at the minority interests' proportionate share of the acquired entity's identifiable assets and liabilities (partial goodwill method), i.e. no share of goodwill is allocated to the minority interests.

Fair value is the amount for which an asset or Cash Generating Unit (CGU) could be sold between knowledgeable, willing parties in an arm's length transaction.

Goodwill represents the excess of the cost of a business combination over the acquirer's interest in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities that can be reliably measured at the acquisition date; minority interests are either measured at fair value or not, depending on the option elected (see above). Goodwill is allocated to the CGU benefiting from the business combination or to the group of CGUs at the level of which return on investment is measured (business segment for the Bouygues group).

The purchase price allocation period is limited to the time required to identify and measure the acquired entity's assets and liabilities, the minority interests, the consideration transferred and the fair value of any previously-held equity interest, subject to a maximum period of 12 months.

Negative goodwill (i.e. gain from a bargain purchase) is taken to the income statement in the period in which the acquisition is made.

Subsequently, goodwill is carried at cost net of any impairment losses identified annually using the methods described under "Impairment testing of non-current assets" in Note 2.7.1 below, in accordance with IAS 36. Impairment losses are charged to the income statement as an operating item.

In accordance with the revised IFRS 3, any previously-held equity interest is remeasured at fair value at the date on which control is obtained, with the resulting gain or loss recognised in profit or loss for the period. In the event of loss of control, the retained equity interest is also remeasured at fair value; the gain or loss on remeasurement is recognised in profit or loss for the period, along with the gain or loss arising on the disposal.

In the event of a change in percentage interest with no effect on control, the difference between the consideration paid or received and the carrying amount of the minority interest is recognised directly in equity attributable to the Group. Consequently, no additional goodwill is recognised.

All acquisition-related costs are recognised as an expense in profit or loss for the period.

Goodwill recognised prior to 1 January 2004 continues to be measured using the partial fair value method. This method involves restricting the fair value remeasurement of identifiable items to the percentage interest acquired. Minority interests in these items are measured on the basis of the carrying amount of the items as shown in the balance sheet of the acquired entity. The revised standards allow the acquirer to elect to account for each new business combination on either a full goodwill basis or a partial goodwill basis.

2.5. FOREIGN CURRENCY TRANSLATION

2.5.1. Transactions denominated in foreign currencies

Transactions denominated in foreign currencies are translated into euros at the average exchange rate on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the closing exchange rate. Translation differences are recognised as income or expenses in the income statement. Non-monetary assets and liabilities denominated in foreign currencies and accounted for at historical cost are translated using the exchange rate on the date of the transaction.

2.5.2. Financial statements of foreign entities with a functional currency other than the euro

All assets and liabilities of consolidated entities with a functional currency other than the euro are translated at the closing exchange rate. Income and expenses are translated at the average exchange rate for the period. Translation differences arising from this treatment, and arising from the retranslation of a subsidiary’s opening shareholders’ equity at the closing exchange rate, are taken to the translation reserve (which is a component of consolidated shareholders’ equity). Translation differences arising on the net investment in foreign subsidiaries and associates are recognised in shareholders' equity.

2.6. ASSESSMENT OF INCOME TAXES

- Income taxes of consolidated entities for interim periods are assessed in accordance with IAS 34: the income taxes of each entity are recognised on the basis of the best estimate of the average annual effective income tax rate for the financial year (except in the case of holding companies, which recognise income taxes on the basis of the actual tax position at the end of the period).
- Deferred taxation is recognised on differences between the carrying amount and tax base of assets or liabilities, and arises as a result of:
  - Temporary differences between the carrying amount and tax base of assets or liabilities, which may be:
    - items generating a tax liability in the future (deferred tax liabilities), arising mainly from income that is liable to tax in future periods; or
    - items deductible from taxable profits in the future (deferred tax assets), mainly provisions that are temporarily non-deductible for tax purposes. Such assets are recognised to the extent that is probable that sufficient taxable profits will be available against which to offset the temporary differences, and are reviewed at each balance sheet date.
  - Tax losses available for carry-forward (deferred tax assets), where it is probable that these losses will be recovered in future periods.

Deferred taxes are measured using known applicable national tax rates for the relevant country as at the balance sheet date.

Deferred taxes are not discounted, and are reported in non-current assets and liabilities.

2.7. Non-current assets

2.7.1. Impairment testing – non-current assets and investments in associates

Impairment tests are carried out on the carrying amount of intangible assets and investments in associates if there is objective evidence that they may have become impaired.
The carrying amounts of indefinite-lived intangible assets and goodwill are compared to their recoverable amounts at least at the end of each financial year.

Impairment testing of TF1, Bouygues Telecom and Colas

In determining the recoverable amount, intangible assets to which independent cash flows cannot be directly allocated are grouped within the cash-generating unit (CGU) to which they belong, or within the appropriate group of CGUs representing the lowest level at which management monitors return on investment (business segment level in the case of the Bouygues group). The recoverable amount of CGUs is measured as follows:

a) For TF1, which is listed on the stock market and has good liquidity: on the basis of the quoted share price if this exceeds the carrying amount of the assets (after allowing for a control premium); otherwise, using the Discounted Cash Flow (DCF) method, taking account of the specific characteristics of TF1.

b) For other CGUs: using the DCF method, taking account of the specific characteristics of the CGU.

- The cash flows used are derived from the three-year business plan prepared by the management of the business segment and approved by the Boards of Directors of the entity and of Bouygues SA.

- The discount rate is determined using a weighted average cost of capital appropriate to the sector in which the segment operates, by reference to a panel of comparable companies.

- The terminal value is calculated by aggregating the discounted cash flows to infinity, based on normative cash flows and a perpetual growth rate that is consistent with the growth potential of the markets in which the business segment operates and with its competitive position in those markets.

The recoverable amount of the CGU as determined above is then compared with its carrying amount in the consolidated balance sheet. If this carrying amount is greater than the recoverable amount of the CGU, an impairment loss is recognised. Any such losses are allocated in the first instance to any goodwill recognised in the balance sheet, and may not be subsequently reversed.

At 31 March 2012, in light of the entry of a fourth mobile operator into the French telecoms market, the interest in Bouygues Telecom was tested for impairment.

- Information about the impairment testing of Bouygues Telecom:
  - The recoverable amount of Bouygues Telecom was determined using the method described above, based on three-year cash flow projections prepared by Bouygues Telecom management.
  - Cash flows beyond the projection period were extrapolated using a reasonable, sector-specific perpetual growth rate.
  - The discount rates (weighted average cost of capital) and growth rate used at 31 March 2012 were:

	Discount rate		Perpetual growth rate
	Scenario 1**(a)**	Scenario 2**(a)**	
- Bouygues Telecom	5.19%	4.72%	2%

(a) *Depending on the capital structure: scenario 1 = ⅓ debt, ⅔ equity; scenario 2 = ⅔ debt, ⅓ equity.*

Impairment testing of the investment in Alstom

Because goodwill included in the carrying amount of investments in associates is not shown separately, it is not tested separately for impairment under IAS 36.

Given the revision to analysts' forecasts following publication of Alstom's financial statements on 4 May 2012, the total carrying amount of the investment in Alstom was tested for impairment as at 31 March 2012 by comparing it with the recoverable amount as derived from forecasts prepared by a panel of financial analysts.

- The discount rates (weighted average cost of capital) and growth rate used for Alstom at 31 March 2012 were:

	Discount rate		Growth rate applied to cash flows beyond a 5-year time horizon
	Scenario 1 (a)	Scenario 2 (a)	
Alstom	9.25%	8.29%	2%

(a) *Depending on the capital structure: scenario 1 = ⅓ debt, ⅔ equity; scenario 2 = ⅔ debt, ⅓ equity.*

Note 3.3 to the consolidated financial statements includes a table showing the consolidated carrying amount of listed shares held by Bouygues (TF1, Alstom, Colas) relative to the closing quoted share price at 31 March 2012. As of that date, there were no material events that might call into question the carrying amounts reported for these companies.

Sensitivity analysis

An analysis was performed for Bouygues Telecom and for the interest in Alstom in order to determine the sensitivity of the calculation to the key parameters (discount rates, growth rates, normative cash flows), either individually or using combined scenarios for discount rates and normative cash flows (including reasonably possible changes in normative cash flows). This analysis showed no probable scenario in which the recoverable amount of the assets tested would fall below their carrying amount (and consequently, in which an impairment loss would need to be recognised).

The recoverable amount determined on the basis of this analysis, using two different capital structure scenarios and all other scenarios applied, was greater than the carrying amount of the assets tested.

2.8. Cash flow statement

The cash flow statement is presented in accordance with IAS 7 and with CNC recommendation 2009-R-03 of 2 July 2009, using the indirect method.

The net profit of consolidated entities is adjusted to eliminate the impact of transactions with no cash effect, and of income and expenses related to investing or financing activities.

- Cash flow:

  The Bouygues group defines cash flow as:

  Consolidated net profit before: net depreciation and amortisation expense, net changes in provisions and impairment losses, gains and losses on asset disposals, cost of net debt (included in financing activities in the cash flow statement), and net income tax expense for the period.

  The cash flow statement explains changes in the Group's net cash position, which is defined as the net total of the following balance sheet items:

  - cash and cash equivalents;
  - overdrafts and short-term bank borrowings.

2.9. OTHER FINANCIAL INDICATORS

2.9.1. EBITDA

Operating profit excluding net depreciation and amortisation expense and changes in provisions, and impairment losses (after reversals of utilised and non-utilised provisions and of impairment losses).

2.9.2. Free cash flow

Cash flow (determined after cost of net debt and net income tax expense, but before changes in working capital) minus net capital expenditure for the period.

2.9.3. Net debt

This represents the aggregate of:

- cash and cash equivalents;
- overdrafts and short-term bank borrowings;
- non-current and current debt;
- financial instruments (used to hedge financial liabilities measured at fair value).

2.10. STATEMENT OF RECOGNISED INCOME AND EXPENSE

The Group presents a statement of recognised income and expense, disclosing a comparative net profit figure on the line "Total recognised income and expense" which includes income and expenses recognised directly in equity.

2.11. COMPARABILITY OF THE FINANCIAL STATEMENTS

Changes in the scope of consolidation during the three months to 31 March 2012 did not have a material effect on the consolidated financial statements as of that date, and do not impair comparisons with the consolidated financial statements for the three months to 31 March 2011.

Sales generated in the first quarter of 2012 by Leadbitter (Bouygues Construction), acquired at the end of March 2011, amounted to €113 million.

-------------- *o* -------------

NOTE 3 NON-CURRENT ASSETS

3.1 PROPERTY, PLANT AND EQUIPMENT 6,502

CARRYING AMOUNT	Land and buildings	Industrial plant and equipment	Other property, plant and equipment	PP&E under construction and advance payments	TOTAL
31 March 2012	**1,396**	**3,760**	**896**	**450**	**6,502**
of which finance leases	13	43	7		63
31 December 2011	**1,384**	**3,791**	**916**	**451**	**6,542**
of which finance leases	14	42	4		60

For an analysis of the carrying amount of property, plant and equipment and intangible assets by business segment see Note 11, "Segment Information".

3.2 INTANGIBLE ASSETS 1,870

CARRYING AMOUNT	Development expenses	Concessions, patents and similar rights	Other intangible assets	Total
31 March 2012	**46**	**719**	**1,105** [a]	**1,870**
31 December 2011	**48**	**714**	**447**	**1,209**

a) Includes €928m of intangible assets in progress; the change during the period is mainly due to the €683m investment by Bouygues Telecom in the licence to use 10 MHz duplex frequencies in the 800 MHz band.

3.3 GOODWILL 5,600

3.3.1. Movement in the carrying amount of goodwill during the period

(excluding goodwill on associates → see note 3.5)

	Gross value	Impairment	Carrying amount
31 December 2011	**5,645**	**(65)**	**5,580**
Acquisitions, disposals, remeasurements and other movements	16		16
Translation adjustments	4		4
Impairment losses recognised during the period			
31 March 2012	**5,665**	**(65)**	**5,600**

3.3.2. Split of goodwill by cash generating unit (CGU)

Segment	31 March 2012		31 December 2011	
	Total	% Bouygues	Total	% Bouygues
Bouygues Construction (subsidiaries) (a)	392	99.97%	388	99.97%
Colas (b)	1,085	96.55%	1,069	96.55%
TF1 (b)	1,458	43.61%	1,458	43.59%
Bouygues Telecom (b)	2,664	89.55%	2,664	89.55%
Other	1		1	
Total	**5,600**		**5,580**	

(a) Only includes goodwill on subsidiaries acquired by the CGU

(b) Includes goodwill on subsidiaries acquired by the CGU and on acquisitions made at parent company (Bouygues SA) level for the CGU

3.4 CONSOLIDATED CARRYING AMOUNT OF LISTED SHARES (IN EUROS)

	Consolidated carrying amount per share at 31 March 2012	Closing market price per share at 30 March 2012
TF1	13.29	9.18 (a)
Colas	86.90	133.10
Alstom (b)	50.77	29.26

(a) €10.56 after adjustment to reflect a control premium

(b) See Note 2.7

3.5 INVESTMENTS IN ASSOCIATES 5,137

	Carrying amount
31 December 2011	**5,085**
Translation adjustments	11
New equity investments and capital increases, net of divestments	(1)
Share of net profit/(loss) for the period	62
Payment of dividends	(1)
Other movements	(19)
31 March 2012	**5,137** (a)

(a) Includes €4,448m for Alstom (goodwill: €2,600m) and €497m for Cofiroute [Colas]

NOTE 4 CURRENT ASSETS

Changes in scope of consolidation		1		1	2
Charges to provisions in the period	14	8	18	18	58
Reversals (utilised and unutilised) (e)	(3)	(17)	(14)	(18)	(52)
Actuarial gains and losses	51[(f)]				51
Transfers & other movements		(2)	(5)	7	
31 March 2012	**542**	**350**	**381**	**653**	**1,926**

(a) Long-term employee benefits	**542**
• Lump-sum retirement benefits and long-service awards	491
• Other long-term employee benefits (pension funds of Colas subsidiaries in English-speaking countries)	51
(b) Litigation and claims	**350**
• Provisions for customer disputes	180
• Provisions for subcontractor claims	30
• Other litigation and claims (including employee disputes)	140
(c) Guarantees given	**381**
• Provisions for customer warranties	281
• Provisions for additional building, civil engineering and civil works guarantees	100
(d) Other non-current provisions	**653**
• Provisions for risks relating to official inspections and to subsidiaries and other equity investees	237
• Provisions for site rehabilitation costs	214
• Other non-current provisions	202

(e) Of which reversals of unutilised provisions: (€21m)

(f) Impact arising from a change in the discount rate used to measure the retirement obligation projected forward to the retirement date (Iboxx A10 rate of 4.24% used in the financial statements for the three months ended 31 March 2012, versus 5.46% used in the financial statements for the year ended 31 December 2011), based on the assumptions applied as of 31 December 2011.

6.2 CURRENT PROVISIONS 795

Provisions related to the operating cycle

	Provisions for customer warranties	Provisions for project risks and project completion	Provisions for expected losses to completion (a)	Other current provisions (b)	TOTAL
31 December 2011	**56**	**289**	**205**	**281**	**831**
Translation adjustments			1	1	2
Changes in scope of consolidation				(1)	(1)
Charges to provisions in the period	3	30	21	16	70
Reversals (utilised or unutilised) (c)	(5)	(41)	(29)	(41)	(116)
Transfers & other movements	4	4		1	9
31 March 2012	**58**	**282**	**198**	**257**	**795**

(a) Provisions for losses to completion relate to construction activities (Bouygues Construction, Bouygues Immobilier and Colas). Individual project provisions are not disclosed for confidentiality reasons.

(b) The main items included in "Other current provisions" are reinsurance costs, the current portion of site rehabilitation costs, rent guarantees (Bouygues Immobilier), film co-financing (TF1), customer claims and vendor's liability guarantees (TF1), and the business customer loyalty programme provision (Bouygues Telecom).

(c) Of which reversals of unutilised provisions: (€29m)

NOTE 7 – NON-CURRENT AND CURRENT DEBT

7.1 BREAKDOWN OF DEBT BY MATURITY

	Current debt		Non-current debt	
	Total 31/03/2012	Total 31/12/2011	Total 31/03/2012	Total 31/12/2011
Bond issues	**177**	121	**6,890** (a)	6,094
Bank borrowings	**68**	58	**626**	589
Finance lease obligations	**20**	20	**31**	35
Other debt	**15**	17	**91**	89
Total debt	**280**	**216**	**7,638**	**6,807**

(a) In February 2012, Bouygues SA carried out a bond issue of €800m maturing in February 2022.

7.2 COVENANTS AND TRIGGER EVENTS

The bond issues maturing in 2013, 2015, 2016, 2018, 2019, 2022 and 2026 contain a change of control clause relating to Bouygues SA.

The bank loans contracted by Bouygues are not subject to any financial covenants or trigger events. The same applies to the credit facilities used by the subsidiaries of Bouygues SA.

NOTE 8 – MAIN COMPONENTS OF CHANGE IN NET DEBT

	31 December 2011	Movements in the period	31 March 2012
Cash and cash equivalents	3,415	(454)	2,961
Overdrafts and short-term bank borrowings	(239)	(112)	(351)
Net cash and cash equivalents	**3,176**	**(566)** (a)	**2,610**
Non-current debt	(6,807)	(831)	(7,638)
Current debt	(216)	(64)	(280)
Financial instruments, net	(15)	(1)	(16)
Total debt	**(7,038)**	**(896)**	**(7,934)**
Net debt	**(3,862)**	**(1,462)**	**(5,324)**

(a) Net cash flows as analysed in the cash flow statement for the period

NOTE 9 – ANALYSIS OF SALES AND OTHER REVENUES FROM OPERATIONS

9.1 ANALYSIS BY ACCOUNTING CLASSIFICATION

	First quarter	
	2012	2011
Sales of goods	697	589
Sales of services	2,833	2,824
Construction contracts	3,455	3,273
Sales	**6,985**	**6,686**
Other revenues from operations	23	39
Total	**7,008**	**6,725**

9.2 CONTRIBUTION OF BUSINESS SEGMENTS TO CONSOLIDATED SALES

BUSINESS SEGMENT	First quarter of 2012				First quarter of 2011			
	France	International	Total	%	France	International	Total	%
Construction	1,259	1,080	2,339	33%	1,246	895	2,141	32%
Property	457	15	472	7%	409	34	443	7%
