

Boulogne-Billancourt - September 9, 2014

**The TF1 and ITAS groups enter into exclusive negotiation for
the potential change of control of OneCast**

The TF1 and ITAS groups have entered into exclusive negotiations with a view to the acquisition by ITAS TIM, a subsidiary of ITAS group, of OneCast, a subsidiary of TF1 operating in the DTT multiplex broadcasting sector.

An agreement could be signed in the coming weeks, once the negotiations have been finalised and the necessary procedures for the information of the relevant employee representative bodies completed.

***OneCast** supplies any technical services relating to the transmission, broadcasting, distribution, production, processing and reception of images, sounds or information of any nature. It notably offers coding, multiplexing, carriage and broadcast of electronic communication signals. The main part of OneCast's activity consists in delivering multiplex of national Digital Terrestrial Television to homes in metropolitan France, and in particular on the diffusion to the "main" DTT broadcasting network.*

About ITAS TIM

Founded in 2008, ITAS TIM is a French « TowerCo » which currently possesses over 380 stations in France. ITAS TIM mainly offers Digital Terrestrial Television ("DTT") and radio broadcasting service. ITAS TIM also offers its stations to equipment of other DTT/Radio operators and provides installation service to all operators.

***About TF1** (NYSE Euronext Paris: FR0000054900 / TF1) is a media group whose mission is to inform and entertain. The group operates and develops four freeview channels and several special-interest pay-TV channels as well as their digital offshoots. The TF1 group's businesses today cover the entire audiovisual value chain.*

France's leading mainstream television group, TF1 is also an integrated media group that has developed activities in high-growth segments for a number of years.
