WORLD EFFICIENCY

SHOW & CONGRESS

EVENT LABELLED COP21

The Bouygues group is taking part in the **World Efficiency show & congress on 13, 14 and 15 October** at Paris (Porte de Versailles).

At its stand, the Group will showcase the energy-carbon solutions of its business segments that are designed to meet the climate challenges highlighted by COP21.

Martin Bouygues, Chairman and CEO, will speak at a plenary session at 2 pm on Wednesday 14 October.

The Group will hold 14 workshops during the event:

Bouygues workshops on Tuesday 13 October:

- 10.50 am - Energy renovation: preserving architectural heritage
- 11.45 am - Urban mobility: cutting the greenhouse gas emissions of major urban infrastructure worksites
- 12.40 am - Nextdoor: another way of going to work*
- 1.35 pm - Challenger: the positive renovation. Transforming a 1980s head office complex into a positive energy building*
- 2.25 pm - Inventing the professions of the sustainable and desirable urban environment of the future (*feedback from the IUS Executive Master's degree programme*)
- 3.20 pm - Data at the service of the environment and mobility - the example of the LoRa* network

Bouygues workshops on Wednesday 14 October:

- 9.55 am - Fighting against climate change: the solar road*
- 11.45 am - Timber at the service of low carbon construction
- 5.10 pm - Managing a positive energy building: promise kept (*feedback from Green Office*)*

Bouygues workshops on Thursday 15 October:

- 9.55 am - Eco-neighbourhoods: smart grids to *smart cities**
- 10.50 am - Sustainable neighbourhoods: inspiring examples from around Europe*
- 11.45 am - Low carbon urban planning: feedback from *Nanterre Cœur de Quartier*
- 12.40 am - *Les Lodges*: timber-frame passive and modular houses where people can live in harmony both today and tomorrow
- 1.35 pm - Large-scale solar power plants to provide towns and cities with energy

*These workshops will be translated into English This schedule may be subject to change
