

Boulogne-Billancourt, Thursday 10 September 2015

In response to a call for applications for television services broadcast in DTT and in HD, launched by the French audiovisual authority (*Conseil Supérieur de l'Audiovisuel* - CSA), TF1 group confirms it submitted four applications on 8 September 2015:

- The TMC channel, for its HD broadcasts,
- The NT1 channel, for its HD broadcasts,
- The LCI channel, for its free and HD broadcasts,
- The Ha26 channel: a home shopping channel – a vast, job-creating project that will not draw on any resources on the advertising market.
