Bouygues press release

COP21: Bouygues will present its low-carbon solutions at La Galerie des Solutions in Le Bourget

Between 2 and 9 December 2015^a, the Bouygues group will be present at La Galerie des Solutions, a space reserved for companies close to the site of the international COP21 negotiations taking place in Le Bourget.

Bouygues' stand (E51) will showcase the solutions of its subsidiaries (Bouygues Construction, Bouygues Immobilier, Colas, TF1 and Bouygues Telecom) to the energy and climate issues we face, to both invited visitors and international delegations.

Drawing on the synergies between its various activities, the Bouygues group will present a range of innovative solutions for the sustainable and desirable urban environment.

► **RENOVATION** - transforming existing buildings into positive-energy ones.
e.g. Challenger, the renovated head office building of Bouygues Construction

► **LOW-CARBON CONSTRUCTION** - making new buildings environmentally-friendly profit centres.
e.g. Green Office[®] Rueil, head office of Unilever France

► **ECO-NEIGHBOURHOODS** - integrating technical solutions thanks to the partnerships forged by Bouygues with a view to developing sustainable and desirable urban environments.
e.g. [the Fort d'Issy eco-neighbourhood](#)

► **SOFT MOBILITY** - for example the Wattway solar road - unveiled for the first time by Colas in October in Paris - which generates clean and renewable energy.

► **URBAN SERVICES** - generating energy savings and improving quality of life, both for local authorities and end-users.
