PARIS

25/03/2019

On Wednesday 27 and Thursday 28 March 2019, the Bouygues group for the first time will bring together all its professions at the Challenger site for a Human Resources forum entitled “**Opportunity**” aimed at all its employees and at students.

This event, dedicated to all its people, is aimed at promoting job mobility within and between the entities. They will be able to find out more about opportunities within the Group, speak with operational staff and managers, and meet Human Resources officers. Employees will also be able to participate in coaching workshops, as well as get advice on how to write their CVs and on how to promote their profiles within the company.

In addition to the networking opportunities and the option of initiating a job mobility, the event will provide a stage for each business segment to showcase its innovation efforts in a showroom dedicated to the theme of “Making progress become reality”.

On the afternoon of Thursday 28 March, “Opportunity” will be specially dedicated to students from the top academic establishments that are on the watch-lists of the Group’s business segments. No less than 500 internships or work/study placements will be on offer at the event and each student will be able to meet someone from Human Resources and/or a manager.

Finally, during the week of 1 to 5 April 2019, a virtual forum will be available to both employees and outside job applicants to conduct interviews via videoconference.
